

Lesson Plans for Week of: 08:26:19

Teacher:	Bradford	Class: 7 th Grade	BA Math
*Lesson plans are subject to change.			

Enduring Understanding:	<ul style="list-style-type: none"> Mathematicians understand how mathematical ideas interconnect and build on one another to produce a coherent whole. Rational numbers can be represented and used in a variety of forms depending on a given situation. 		
Essential Question:	How do numbers relate to one another?		
Monday:	Content Objective(s):	7.2 extend previous knowledge of sets and subsets using a visual representation to describe relationships between sets of rational numbers.	
	Language Objective(s):	Use prior knowledge and experiences to understand meanings in English. [1 A] Learn new language structures, expressions, and basic and academic vocabulary heard during classroom instruction and interactions. [2 C]	
	Content/Language Activities:	Warm-up Classifying numbers Practice	
	Assignment:	Homework: none	

Enduring Understanding:	<ul style="list-style-type: none"> Mathematicians understand how mathematical ideas interconnect and build on one another to produce a coherent whole. Rational numbers can be represented and used in a variety of forms depending on a given situation. 		
Essential Question:	How do numbers relate to one another?		
Tuesday:	Content Objective(s):	7.2 extend previous knowledge of sets and subsets using a visual representation to describe relationships between sets of rational numbers.	
	Language Objective(s):	Use prior knowledge and experiences to understand meanings in English. [1 A] Learn new language structures, expressions, and basic and academic vocabulary heard during classroom instruction and interactions. [2 C]	
	Content/Language	Warm-up	

	Activities:	https://www.youtube.com/watch?v=m94WTZP14SA Notes: Definitions of the Real Number System
	Assignment:	Use Definition Matching Strips to practice Definitions Homework: none

Enduring Understanding:	<ul style="list-style-type: none"> Mathematicians understand how mathematical ideas interconnect and build on one another to produce a coherent whole. Rational numbers can be represented and used in a variety of forms depending on a given situation. 	
Essential Question:	How do numbers relate to one another?	
Wednesday:	Content Objective(s):	Learn the graphing calculator
	Language Objective(s):	Use prior knowledge and experiences to understand meanings in English. [1 A] Learn new language structures, expressions, and basic and academic vocabulary heard during classroom instruction and interactions. [2 C]
	Content/Language Activities:	No Block this week Warm-up Classifying Numbers Game
	Assignment:	Homework: none

Enduring Understanding:	<ul style="list-style-type: none"> Mathematicians understand how mathematical ideas interconnect and build on one another to produce a coherent whole. Rational numbers can be represented and used in a variety of forms depending on a given situation. 	
Essential Question:		
Thursday:	Content Objective(s):	Learn the graphing calculator
	Language Objective(s):	Use prior knowledge and experiences to understand meanings in English. [1 A]
	Content/Language Activities:	7 th Grade Field Trip
	Assignment:	Homework: none

Enduring Understanding:	<ul style="list-style-type: none"> Rational numbers can be represented and used in a variety of forms
--------------------------------	--

	depending on a given situation.	
Essential Question:	How do numbers relate to one another?	
Friday:	Content Objective(s):	7.2 extend previous knowledge of sets and subsets using a visual representation to describe relationships between sets of rational numbers.
	Language Objective(s):	Use prior knowledge and experiences to understand meanings in English. [1 A] Learn new language structures, expressions, and basic and academic vocabulary heard during classroom instruction and interactions. [2 C]
	Content/Language Activities:	Warm-up Students will be given time to study using their vocabulary strip The Real Number System Vocabulary Quiz
	Assignment:	Homework: none
